Gartner: Automation is Driving Market Transformation...

Gartner's "Top 10 Strategic Technology Trends for 2019":

"Augmented analytics represents a third major wave for data and analytics capabilities as data scientists use **automated algorithms** to explore more hypotheses. Data science and machine learning platforms have **transformed how businesses generate analytics insight.**"

...and DataRobot is Leading the Way to the AI-Driven Enterprise

“DataRobot sets **the standard for augmented data science and ML.**”

“By 2020, **more than 40% of data science tasks will be automated.**”

“By 2020, **augmented analytics will be a dominant driver of new purchases** of analytics and BI as well as data science and machine learning platforms.”

“The platform **automates key tasks**, enabling data scientists to work efficiently and citizen data scientists to build models easily.”
